Aunt Chatty's Mothers' Club Conducted by Mrs. Charity Brush

Vocations for Girls.

"HIS is a real Mothers' Club, for the benefit of mothers everywhere who are struggling with questions of discipline, training, education, clothing, for the children. Write to Aunt Chatty of problems which are vexing you, and she will advise and help you to a solution of them. Write to her, too, of your own discoveries, of methods you have found successful in smoothing the rough paths of life for the tender, childish feet, that through the Mothers' Club your experience may be of benefit to other mothers who are still tangled in the web of perplexity you have so happily unraveled.

Co-operation is the secret of success in any business; so why not in the business of motherhood, that highest and holiest calling which always has been and always will be woman's crown of glory, no matter what other avenues of usefulness may be opened to her? Address Mrs. Charity Brush, care of this paper.

Since our talk some months ago on this subject. I have received a number of letters from mothers in different parts of the country commenting on my views of the matter of teaching girls some way to earn their living. I am glad to say that for the most part the mothers agree with me. Most of the letters express approval of the suggestion that girls should be trained as boys are to become self-supporting, but one of our mothers, who signs herself Mrs. E. W. B., is strongly.

In earlier days than those women were signs herself Mrs. E. W. B., is strongly sed to the idea. She writes

NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent, or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the

Dr. A. F. Pecier, of St. Louis, Mo., says: "I have prescribed your Castoris in many cases and have always found it an efficient and speedy remedy. Dr. Frederick D. Rogers, of Chicago, Ill., says: I have found Fletcher's Castoria very useful in the treatment of children's complaints. Dr. William C. Bloomer, of Cleveland, Ohio, says: In my practice I am

glad to recommend your Castoria, knowing it is perfectly harmless and always satisfactory. Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Casforis in my practice for many years with great satisfaction to myself and

benealt to my patients." Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm." Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most

heartily commend its use. The formula contains nothing deleterious to the most delicate of children." Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an

exception for conditions which arise in the care of children." Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments." * Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very fixest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency
